Summary

Passionate and results-oriented Front-End Developer with strong foundation expertise in building scalable, component-based applications using React.js, Next.js, and TypeScript. Seeking to leverage skills in API integration and responsive design to contribute to a collaborative IT team in Dhaka.

Skills

- FRONT-END STACK:** React.js, Next.js, TypeScript, JavaScript (ES6+), Redux/Context API
- STYLING & MARKUP:** HTML5, CSS3, Tailwind CSS
- TOOLS & PLATFORMS:** Git, GitHub, Firebase, VS Code
- CONCEPTS:** API Integration, Responsive Design, Component-based Architecture

Education

- Diploma in Computer Science And Technology**
Sylhet Polytechnic Institute, Sylhet 2021 - 2025
 - Relevant Coursework: Strong foundation in Data Structures, Algorithms, and Object-Oriented Programming (OOP) concepts.
- SSC Secondary School Certificate**
Nautara A.B.L High School, Nautara 2016 - 2021
 - Completed foundational coursework in "Science" This period built a strong base in analytical thinking and discipline.

Projects

- 1. E-Commerce Website (AsadShop) | [Live](#) | [Github](#)**
 - Built a responsive e-commerce platform using React, TypeScript, and Tailwind CSS with modern UI and product listing features.
 - Implemented Redux-based global state handling to efficiently manage cart items and product data.
- 2. Sylhet Polytechnic Institute Smart Campus | [Live](#) | [Github](#)**
 - Developed a Smart Campus software using MERN with secure Firebase authentication and Redux state management.
 - Built a fully responsive interface with Tailwind CSS and implemented real-time CRUD functionalities for student, teacher, and notice management.
- 3. E-Learning Website (Edcare) | [Live](#) | [Github](#)**
 - Developed a responsive e-learning platform using Next.js, React, and Tailwind CSS with course browsing and content display features.
 - Integrated Redux for centralized data handling, enabling smooth state flow across courses, users, and product-related components.
